Release Notes Firmware 2-00

Updates

- General stability and performance was improved.
- An important bug fix which solves memory management problems has been implemented. This bug can lead to a complete shortfall of the unit.
- The flash memory error correction was improved.

Release Notes Firmware 1-69

Updates

- Further common bug fixes and improvements have been implemented.

Compatibility

Platforms:

- Windows®:
For operation with USB audio data on Windows® systems, the installation of an USB driver is required. You can download it from the "Audio Monitors/TM3-Primus" or "Audio Monitors/MM3 MusicMeter" section at members area of our web site:
<https://www.rtw.com/en/support/manuals-software.html>.
Together with the driver the RTW USB Audio Control Panel will be installed. It is used to adjust the USB streaming mode (buffer depth).
Then install the gratuitous RTW USB Connect software to be used for the communication and signal data exchange between PC and the RTW USB Audio device. The software is available free of charge from the "PC Software/RTW USB Connect" section at members area of our web site:
<https://www.rtw.com/en/support/manuals-software.html>.
- Mac OS X®:
Install the gratuitous RTW USB Connect software to be used for the communication and signal data exchange between PC and RTW USB Audio device. The software is available free of charge from the "PC Software/RTW USB Connect" section at members area of our web site:
<https://www.rtw.com/en/support/manuals-software.html>.

Important Notice
